Add Backcountry Freeze-Dried Raw as a mixer to your dog's regular food. When adding mixers, be sure to reduce the amount of other food served accordingly to avoid overfeeding. Feed up to 1/4 cup for every 15 lbs of body weight. This product is intended for intermittent or supplemental feeding only. Every dog is a little different, so optimal feeding amounts may vary with age, size, and activity level. Keep a clean bowl of fresh water available at all times.
