Merrick Grain Free Healthy Weight Recipe Dog Food is formulated to meet the nutritional levels established by the AAFCO Dog Food Nutrient Profiles for maintenance of adult dogs.

| goal wt (lbs) | cups/day (approx) |
|---------------|-------------------|
| 3 | 1/3 cup |
| 6 | 2/3 cup |
| 10 | 1 cup |
| 15 | 1 1/4 cups |
| 20 | 1 1/2 cups |
| 30 | 2 cups |
| 40 | 2 1/2 cups |
| 50 | 3 cups |
| 60 | 3 1/2 cups |
| 70 | 4 cups |
| 80 | 4 1/3 cups |
| 90 | 4 3/4 cups |
| 100 | 5 cups |

Using the chart below, divide the total cups per day by the total number of times you feed your dog per day to determine the portion size for each meal. Keep a clean bowl of fresh water available at all times. Every dog is a little different, so optimal feeding amounts may vary with age, size, and activity level. Please use the information below as an initial recommendation only and adjust when needed. Dry and wet food in combination will help to increase the level of water in your dog's diet. If feeding with wet food,

reduce dry amount by 1/2 cup for every 6 oz. of wet food.

For dogs over 100 lbs: Add 1/3 cup per additional 10 lbs.

Transitioning: Gradually mix in the new food over a 5-7 day period, increasing the amount of Merrick Grain Free Healthy Weight Recipe each day.
